Dear Harold,

Here are the pertinent Tri-State Defender articles from 1968. Notice that the Invaders are not even mentioned until August 24, when the paper's lead article outlines their demands to SCLC. Also notice the very full coverage of police violence against the strikers and their supporters prior to the assasination.

Nick and my trip to Tennessee proved extremely fruitful both in terms of acquiring information for our own case and in building our understanding of the political context in which King's assasination took place. It is astounding how much one can learn just from visiting the site.

We will be in touch with you soon.

Sincerely,

Al McSurely
